PERSONAL STATEMENT

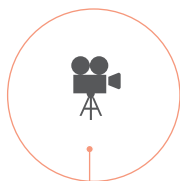

I'm a 3D generalist and video editor. 21 years old from Barcelona (Spain). I love everything that has to do with 2D design, Animation and cinema and I feel a true devotion for special effects in movies or TV shows. I have finished my studies in 3D Animation, along with my experience in companies as internship.

I feel ready to work for any production company or studio! I love working and learning with people, especially if they have the same passion I have for what they do.

Actually I'm starting to learn Korean.

Why do not we work together? See below to see why I am the person you needcontratar!
